

liquidlogic™

length: **6'** | width: **24.5"** | cockpit size: **18.5" x 33.25"** | volume: **49 gal.** | rocker bow/stern: **8" / 5"** | weight: **29 lb**

Designed and tested in our backyard on the Narrows of the Green River, the Huck is water smart and rock friendly. At 7' 7" with a chined displacement hull and 18" of combined rocker, the Huck excels in tight, technical environments. With play-boat-like control, just the right amount of volume to fit most paddlers, and safety features like our Black Diamond Security Bars, integrated wall support, and roomy cockpit, it's ready to huck when you are.

FEATURES

- **Big Volume:** Huge loops even in the smallest hole
- **Big planing Spin Disk:** Loose and bouncy on waves
- **Large Footprint:** Generates extra speed on normal size waves.
- **Mid-ship Design:** Extra volume around the center of the boat for friendly river running
- **Recessed Rails:** Dynamic carveability and edge speed
- **Flex Capacitor Backband:** Ratchet system for in-seat adjustment and maximum control
- **Foam Bulkhead:** A comfortable pre-cut footbed
- **Stiffy-Hull System:** Safety, stiffness, control
- **Security Bars by Black Diamond:** 7000 series aluminum for maximum strength
- **Integrated Wall Supports:** Increases lateral wall stability
- **Easily Adjustable Seat and Thigh Braces:** Custom fit and trim
- **Fully Adjustable Hip Hugger:** Precise outfitting with bomber hold
