

liquidlogic™

length: **9'6"** | width: **26.5"** | cockpit size: **43" x 20"** | depth: **13.5"** | stern storage: **3465 in³** | capacity: **325 lbs.** | weight: **40 lbs.**

The Sapphire adds a new dimension to our Trekreation fleet. Allen Stancil created this little gem with the Swede-form design common to all of our Trekreation boats, and emphasis on tracking and stability. It's perfect for bird-watching, photography or plain having fun on the water. The Sapphire is outfitted with our Comfort-Plus seat system, adjustable footbraces, and molded fabric coated seat pad. It is made with the same commitment to premium quality found in all of our kayaks.

FEATURES

- **Faceted hull design provides speed, superb stability and excellent tracking**
- **Unique deck design allows optimum knee and leg room**
- **The Comfort-Plus molded seat with ratcheted backrest and multi-adjustable padded back support for maximum comfort**
